

15<sup>th</sup> September 2011

To whom it may concern,

Adrian Taylor from 80:20 Management Consulting was referred to us earlier this year to help us achieve Environmental certification.

Mark Perry Furniture passed our certification audit last week and can now happily say to our clients that we are an environmentally certified company.

Adrian was a big help pulling the system together, his prompt service, reliability and effort have made 80:20 a highly regarded service provider to our company.

I would recommend Adrian to any business. He was mindful of our costs and made himself available for any assistance we needed to help ensure things went smoothly

Yours sincerely

Annette Montagiani
