

Koh haircutters

To whom it may concern

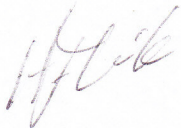

I have known Sheldon as a friend for over 10 years & during this time I owned one hair salon. A few years ago I purchased 2 other salons and had difficulties in managing the three. Over that time I had seen what Sheldon had done for a number of different companies to improve their systems and make them much more efficient and profitable.

When Sheldon formed 8020 with Adrian I brought them in to refine the Salon's operations, set up a head office and streamline all the paper work and processes.

Now we have 6 salons, the stores are more profitable, the staff are happier & working well as a team and I now have a greater quality of life.

I have no hesitation in recommending 80:20 Management Consulting to other salons and small business.

Yours sincerely

Heath Flint
